VERIFIED STATEMENT OF FACTS

IN SUPPORT OF PETITION TO CORRECT INVENTORSHIP UNDER 37 CFR 1.48(a)

Dear Sir,

The undersigned being the originally named inventor in the above-entitled matter hereby declares the following:

I am the originally named inventor of the above identified application entitled METHOD AND APPARATUS FOR PREPARING TISSUE SAMPLES FOR SECTIONING.

At the time of the invention, I was employed by Ventana Medical Systems, Inc., Assignee of the application (hereinafter "Ventana").

In the rush to prepare and file the application, only I was named as an inventor. However, after the application was filed, the application was reviewed with corporate counsel in charge of patent matters at Ventana, and it was determined that certain additional subject matter disclosed but not claimed should be claimed in this application. Accordingly, a Preliminary Amendment to this effect was prepared and filed. Additionally, it was determined that Kurt Reinhardt, Miroslav Holubec, and David Bryant also should have been named as co-inventors since they did, in fact,

contribute to the present claimed invention. However, as mentioned supra, due to the rush to file, they were inadvertently omitted as named inventors.

The error in omitting Kurt Reinhardt, Miroslav Holubec and David Bryant as co-inventors was without any deceptive intent on my part or anyone else involved in the preparation or prosecution of this application.

Promptly upon realization of the fact that Kurt Reinhardt, Miroslav Holubec and David Bryant should be named as co-inventors, I, together with my co-inventors, arranged to correct the inventorship of the subject application.

In view of the foregoing, I respectfully request that the Commissioner grant the accompanying Petition to Correct Inventorship of the above identified application under 37 CFR 1.48(a), and name Kurt Reinhardt, Miroslav Holubec and David Bryant as named inventors of the above application.

I hereby declare that all statements made herein are true and that all statements made on information and belief are with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 USC § 1001, and that such false statements may jeopardize the validity of the Application or any patent issuing therefrom.
